THE BIGGEST
RSL FACTORY EVER !!

南京亚狮龙

RSL NANJING 体育用品有限公司
SPORTSGOODS CO. LTD.

The all new 150 acres RSL Shuttlecock Feather Processing Plant (about 56 football fields) is the biggest RSL factory ever. This is the newest addition to RSL factories and it deals only with feather processing. It is currently processing over 2.7 tons of raw feather per day and close to 80 tons per month which amounts to 70 million pieces of feather. RSL sees feather as the most important part of a shuttlecock as it determines the shuttles' durability, flight and speed, which is why we want to control the quality at its source in raw feather form. This means we always have an abundant supply of consistently top quality feather all year round.

In line with making satisfactory progress in business, RSL also helps to promote badminton as a sport by sponsoring international tournaments and players particularly by way of special assistance to help those countries which are still in the course of development programmes. All these efforts are made with a view in promoting badminton as a sport. It is believed that the professionalism of our equipment and exposure of our products will enable more badminton supporter to gain access to these benefits.

VERSATILE EXPLORER SERIES

Explorer 3.1

RB-909

Color : White , Red , Gold
Size : 740 X 290 X 260 mm

ORGANIZATION

1. 2 Big compartments.
2. Big side pockets.

- Traditional Tour racket bag with new design features.
- Extra durable material at the bottom of Explorer 3.1 for extra protection.
- 2 big compartments.
- Maximum can carry up to 20 badminton rackets without covers.(Carry less rackets is recommended for better racket protection)
- Inner zipper pocket for valuables.
- Long handle straps on the outside, allowing the user to pick up the bag with the compartments unzipped.
- Versatile design, ready for Badminton rackets, Tennis rackets, squash rackets and any other rackets sports.
- 2 big side pockets for easy access to your personal belongings.
- Stand alone design – The Explorer 3.1 is designed to stand by itself without falling over. When you are waiting for a friend or travelling home on a bus, Explorer can stand with you without toppling over and without bending down to pick it up.
- The padded backpack shoulder straps can be neatly hidden away.
